

Demand in your letters: Mission Statements

- PED cease and desist on the End of Course exams for 2013-2014 school year;
- PED be directed to re-work its evaluation plan, work with teachers and administrators statewide (not hand-chosen people) to revamp the model to make observation the main focus of the teacher's evaluation scores. Reduce the impact of standardized tests on a teacher's total score. Listen to what is currently working with the new observations going on within our schools. Listen to what is not working;
- Lawmakers must address the constitutional rule that allows the governor to appoint a secretary of education, who can impose mandates by administrative rule without proper checks and balances. The state secretary of education has much unilateral power.

More teaching.
Less testing.
